Question:
Given a pattern and an input string, find if the string follows the same pattern. Return 1 if the pattern matches, otherwise return 0.

Examples:
1.   Pattern: "abab"
Input: "redblueredblue"
Output: 1

2.   Pattern: "aaa"
Input: "catcatcat"
Output: 1

3.   Pattern: "aabc"
Input: "fivefivesixsix"
Output: 0
